Professional Summary

Computer Science graduate (AI & ML) from VIT Bhopal with 8.87 CGPA, specializing in Python, Machine Learning, Deep Learning, and NLP. Proven ability to build end-to-end AI solutions from conversational chatbots to predictive models with 600+ coding problems solved and AWS Cloud certification. Passionate about leveraging data-driven intelligence to solve real-world problems.

EDUCATION

VIT Bhopal University
BTech in CSE(AIML)

June 2022
8.87 CGPA

SKILLS

Expertise: Machine Learning, Deep Learning, NLP, Data Analysis, Data Structures & Algorithms, OOP, Advanced Excel Function, Database Management System, Computer Vision

Languages: Python, SQL, C++, HTML, CSS

Frameworks: NumPy, pandas, scikit-learn, TensorFlow, Keras, PyTorch, OpenCV, NLTK, spaCy, Gensim, Matplotlib, Seaborn, Plotly, Flask

Tools: Excel, Google Sheets, Git, GitHub, AWS, Jupyter Notebook, VS Code, Google Colab, PyCharm, Tinkercad

Professional: Problem Solving, Analytical Thinking, Strong English Communication, Report Writing, Teamwork, Time Management, Adaptability, Critical Thinking, Technical Documentation

PROJECTS

AI-Powered Conversational Chatbot

Conversational AI, NLP, Deep Learning, LSTM, Flask, Automated Customer Support ([GitHub](#))

- Developed an AI-based chatbot using TensorFlow and Keras for intent classification and automated responses.
- Designed NLP preprocessing pipeline for tokenization, lemmatization, and training deep learning models.

Rainfall Prediction System

Machine Learning, Data Analysis, Regression, Predictive Modeling, Data Visualization ([GitHub](#))

- Built machine learning models (Linear Regression, Decision Tree, Random Forest) to predict rainfall trends
- Performed data preprocessing, feature engineering, and exploratory data analysis on historical datasets.

Resume Scanner

NLP, Resume Screening, Text Mining, Machine Learning, Flask, Automation ([GitHub](#))

- Developed an NLP-based resume screening tool for keyword extraction and candidate skill matching.
- Implemented similarity scoring using scikit-learn for automated candidate ranking.

WhatsApp Chat Analyzer

Data Analysis, NLP, Python, Visualization, Text Analytics ([GitHub](#))

- Developed a Python-based system to analyze WhatsApp chat data and extract communication insights.
- Visualized message trends, user activity, and word frequency using pandas and Matplotlib/Seaborn.

EXPERIENCE

TEACHNOOK ROBOTICS

Feb 2023 – May 2023

Robotics Intern

Remote

- Designed and simulated robotic components using TinkerCad and worked with sensors and motors for basic automation projects.

CERTIFICATIONS & ACHIEVEMENTS

- Solved 600+ coding problems across multiple platforms ([Link](#))
- AWS Certified Cloud Practitioner ([Link](#))
- Privacy and Security in Online Social Media (NPTEL) ([Link](#))
- GEN AI Using IBM Watsonx ([Link](#))
